Subject: Dear Judge,

Dear Judge,

I support the Bush Administration and Microsoft to settle this case as soon as possible; it is in publics' best interest as we will be far better served by settlement than ongoing litigation at a much higher cost. The consumer is always the one who suffers and in this case it is a double whammy; we must pay through taxes for the governments work then we pay more for the product because the company passes the cost on to the consumer by raising their prices to cover the litigation and it discourages other business ventures because they don't want the risk, maybe that's a triple whammy. Please settle it. Thank you.
